#### A CORRECTION.

In the statement published in The Eagle yesterday afternoon relative to the meningitis case west of town, a typographical error occurred making The Eagle say that it was a "typhoid" case, when it was intended to say a "typical" meningitis case.

Dr. W. H. Oliver called at The Eagle office today and asked that the correction be made, and also stated that the meningitis serum would be administered to the child this afternoon. He stated that it should have been done long ago, but was delayed on account of the objections of the parents of the child.

#### POOL HALL MOVING.

The Pastime pool hall, Preston & Hrdlicka proprietors, is being moved from the ground floor of the Masonic Temple to the W. J. Coulter building, better known as the Willman building, on the Dunn & Daly block. The building has recently been thoroughly overhauled and repaired, and is now bright, new and clean. It is a first-class location for the business for which it is to be used.

Buchanan and V. B. Edge, heretofore elected to the offices of prelate and outer guard, respectively, not being present, will be installed later.

#### PROTECT YOURSELF.

To be immune or even in a measure protected from a disease as fatal as meningitis is indeed comforting. Dr. Abraham Sophian, the meningitis expert, advises the use of Hexamethylene Tetramine internally daily as a preventive against this disease. Parties interested can obtain the drug in tablets (best and most convenient to take) and be further advised as to its administration at Read & Stewart's.

## Concentration Pays

The stream flows along steadily, its waters are placid, its flow uninterrupted. It may be majestic enough but its power is not used. But put in a big dam, let the waters accumulate, then the power is at command. The same waters flow down the stream but by concentration the power is developed.

It is the same with money. Single dollars floating around will never control big deals, yet concentrated in a bank their power is developed. They aid new enterprises, give energy and stability to business, become a new power in the business world, and yet like the water in the stream, their flow is not interrupted. The money is subject to the depositor's check. Help us make this a stronger bank. You will share in the benefit.
